

SECRETARIA DE PLANEACIÓN
Coordinación General de Servicios Bibliográficos

Agosto 21, 2003.

Directores de Unidad,
Coordinadores Académicos,
Jefes y Asesores de Departamento y
Responsables de Bibliotecas
P r e s e n t e s.

Por gestiones de la Coordinación General de Servicios Bibliográficos, se ha establecido un convenio de acceso gratuito por medio de Internet al texto completo de la revista Science el cual estará vigente a partir de esta fecha y hasta el 31 de diciembre del 2003.

La dirección para consultar la publicación es la siguiente: <http://www.sciencemag.org/>

La consulta de los archivos retrospectivos debe hacerse en la siguiente dirección: <http://www.sciencemag.org/contents-by-date.0.shtml> , desde la cual se podrá acceder a la información disponible desde octubre de 1995.

Adjunto encontrarán las condiciones y términos de uso, con el objeto de que se tome debida nota al respecto. No sobra aclarar que como en todos los accesos que tiene el centro a revistas en texto completo, la consulta solo puede realizarse desde la red del Cinvestav.

Solicito su apoyo para hacer extensiva esta información a todo el personal académico del Cinvestav.

Sin otro particular, quedo de usted.

Atentamente,

Alberto F. Zurita G.

Unidad de Servicios Bibliográficos

Vo. Bo.

Dr. Jorge Torres Muñoz

Secretario de Planeación

You are currently logged in under the CINVESTAV IPN Institutional subscription. You have access to the following content:

- All Science content except Science Express PDF articles, which are reserved for AAAS members and are available to non-members on a pay-per-view basis. (Note: research papers in Science Express become available under this subscription after publication in the print version of the journal.)
- ScienceNOW
- All Free Content:
 - Science Table of Contents of current and back issues
 - Science Supporting Online Material

- Science Technical Comments
- Science Careers
- Science Essays on Science and Society
- Science Functional Genomics
- AIDScience Knowledge Environment
- Searching
- E-Mail Alerts

Science Online Institutional Site-Wide Subscription Agreement For Access To: Science and ScienceNOW

This agreement establishes the terms of usage and other rules applying to an institutional site-wide subscription for online access through the Internet to the following portions of Science Online: Science and ScienceNOW. Access to these publications is granted for all authorized users (defined below) at the institution based upon the following: acceptance by the American Association for the Advancement of Science of the institution's completed order form; receipt of the required subscription fee; and acceptance of this agreement by the institution's Subscription Administrator at the time of activation of the subscription.

AAAS ("We") maintains the Science Online site include Science and ScienceNOW primarily as a service to its members and the scientific community. We hold the copyright for all works published herein, as a compilation and as to the individual articles, collectively and individually, unless otherwise expressly noted. Users agree to be bound by copyright law with respect to their use of the site. Moderate downloading, printing, or saving of material for personal, non-commercial use is permissible, only to the extent consistent with the 'fair use' doctrine. Extensive downloading, printing, or saving of articles by individual users is not permitted. No commercial use (e.g. printing to resell or redistribute to non-paying or non-authorized users) of any articles is permitted without prior, express written permission of AAAS.

Because of the easily reproducible nature of electronic publications, AAAS explicitly prohibits Inter Library Loan of articles or components of Science Online including Science and ScienceNOW in any electronic or digital form. It will, however, be permissible for your institution to print out occasional articles for Inter Library Loan under CONTU guidelines, provided the printing is done at your location and at your expense, and that only a limited number of copies of such articles will be made and distributed in this way.

All costs necessary for accessing and viewing Science Online including Science and ScienceNOW including equipment, software, phone lines, telecommunications, and Internet connections will be borne by the institution or individuals who subscribe. AAAS provides access only for the term of this subscription, and does not undertake to ensure future access to the online archives once the subscription term has expired. It is our intention to retain full-text versions of all articles for all past issues posted online and to continue to make this database available to all currently active subscribers. However, because we cannot be certain of future technology, storage, or maintenance costs, we cannot guarantee this access. AAAS reserves the right to remove all or portions of the archive of past issues, or to institute a charge for access to it in the future. Only current active subscribers are entitled to continued access to the archives

and the current material.

AAAS intends for the site to be available 24-hours per day, 7 days per week. However, AAAS will not be liable for damages or refunds should the site become unavailable temporarily or access to the site becomes slow or incomplete due to system back-up procedures, Internet traffic volume, upgrades, overload of requests to the servers, general network failures or delays, or any other cause which may from time to time make the site inaccessible for your users.

While we make an effort to ensure the accuracy of content posted online, AAAS does not warrant or guarantee its accuracy, completeness, merchantability, or fitness to a particular purpose. In no case shall AAAS' aggregate liability for any content or accessibility problems with the site exceed the amount of subscription fees paid for Science and ScienceNOW during the 12-month period preceding any claim or notice of damages.

While institutions forming site-wide subscription agreements are not bound to monitor or enforce the specific uses made of the site by authorized users, you must agree to the following:

1. In the event that AAAS or your institution become aware of abuses of the site emanating from any of your locations, you will notify us (if you become aware first), and will cooperate in locating and attempting to stop the specific individuals who are abusing the service. If the specific abuser(s) cannot be identified or stopped, AAAS has the right to withhold, suspend, or terminate access to all or any portion of your site. AAAS will not be liable for any damages beyond a prorated refund for the remaining unused portion of the subscription.
2. You agree not to remove, cover, overlay, obscure, or change any copyright notices, legends, or terms of use which AAAS may post on the site in order to inform individual users about system features, terms of use, or copyright notices; in some cases, we may ask your institution to post information in writing near Science Online including Science and ScienceNOW-enabled workstations or on your system's gateway web pages to alert users to terms of use. You agree to cooperate with reasonable requests to post such notices.
3. You are responsible for creating and maintaining reasonable security measures, and posting policies to ensure that only authorized users will use the site. For purposes of this agreement, all individuals with a current direct affiliation with your institution - for example employees, students or a visitor to the physical campus who is authorized to use the library network - will count as authorized users. Your institution is prohibited from making agreements for access to Science Online including Science and ScienceNOW with individuals, organizations, vendors, affiliates, or partners which are not a part of the same institution purchasing this subscription. You affirm that all IP addresses in the range you list for authorization are specifically controlled by the institution for workstations under its administrative control and for the use of individuals who meet the authorized user criteria above.

Your institution and its authorized users will have access to Fora, chat rooms, or discussion groups which may be posted from time to time on Science Online including Science and ScienceNOW or other AAAS electronic products. Any user that participates agrees that they will not upload material unless they have the right to do so. Any user who participates in such discussions must forego all copyright and ‘moral rights’ in any material they upload. AAAS is not obligated to post all comments from users. AAAS retains the right to, and you agree that AAAS may, edit, change or delete any comments before or after posting as it sees fit. AAAS also has the right to remove, edit, or simply not to post any comment it deems to be, or believes others may deem to be, offensive, libelous, slanderous or otherwise illegal. A notice of these terms of usage will be posted at each discussion group. While it is not the institution’s responsibility to enforce or monitor user’s behavior in such discussion groups, your institution must agree to the following:

1. Your institution foregoes any claims it might have of copyright or ‘moral rights’ with respect to any of its employee’s or authorized users’ postings, except that your institution reserves the right to use such postings for educational purposes at your institution;
2. The subscription administrator must be aware of these terms and advise users if they ask; this obligation can be met by posting either physical or electronic notices at prominent locations near where users may be accessing the discussion groups at the Science Online including Science and ScienceNOW site; and
3. You must ensure that our notice will not be blocked, removed, or edited by anything in your system or at your gateway web page.
