

How to write a scientific paper

COURSE 2023 | October 9 - 20 | 17 - 19 h.

**Dr. Agustín
Guerrero
Hernández**

BIOCHEMISTRY
DEPARTMENT,
CINVESTAV IPN

ONSITE COURSE
Mario García
Classroom

Lectures

- Why English? Types of scientific papers; scientific journals.
- Etiquette rules in scientific publishing.
- Parts of a research scientific paper. Authorship rules.
- Data analysis and statistics.
- Generating figures.
- Writing methods.
- Writing results, supplementary data, discussion and conclusion.
- Writing introduction, abstract, title, keywords, acknowledgements.
- References and cover letter, submission.
- Tips on how to deal with editors and reviewers

Requisites: The course will be given in English so fluency in this language will help a lot. Students need to have an idea of what the manuscript will be about. Also to have certain practice in analyzing scientific papers. There is no need to have a set of figures for taking this course although having this might make this course more fruitful.

To register: Write an email to Lic. Angélica González - agonzalezc@cinvestav.mx
